PROFESSIONAL SUMMARY

B.E. graduate in Artificial Intelligence & Data Science (SPPU, CGPA: 8.16) with proven experience building and deploying production-ready AI systems. Engineered a CNN-based deepfake detection system using EfficientNet achieving ~92% validation accuracy, and deployed SplitWise AI — a live full-stack application integrating LLM pipelines, OCR, and real-time analytics. Proficient in Python, TensorFlow, Scikit-learn, and OpenCV, with hands-on experience in deep learning model development, computer vision pipelines, and LLM integration. Seeking an Applied AI/ML role to engineer intelligent, scalable systems that deliver measurable real-world impact.

TECHNICAL SKILLS

- **Languages:** Python, SQL, C++
- **ML & Deep Learning:** TensorFlow, Keras, Scikit-learn, OpenCV, Pandas, NumPy, Matplotlib, Seaborn, Plotly
- **LLM & Generative AI:** Google Gemini API, Prompt Engineering, LLM Integration, OCR Pipelines (EasyOCR)
- **Deployment & APIs:** Streamlit, FastAPI, Flask, REST APIs
- **Databases:** SQLite, MySQL, MongoDB (NoSQL)
- **AI Developer Tools:** Claude Code, Cursor AI, GitHub Copilot, Google AI Studio
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, Google Colab, VS Code

PROFESSIONAL EXPERIENCE

Data Science Intern | Cognifyz Technologies

Jan 2025 – Feb 2025

- Performed EDA on 10,000+ records using Python (Pandas, NumPy), identifying business trends, outliers, and data quality issues to support data-driven analytical decisions. Built and evaluated classification and regression models using Scikit-learn, delivering predictive insights and KPI tracking dashboards with Matplotlib and Seaborn.

Operations Executive | Career Ireland

Sep 2024 – Oct 2024 | Ireland (Remote)

- Verified high-volume customer documentation with rigorous accuracy and regulatory compliance, maintaining strong data quality and integrity standards in a fast-paced environment. Streamlined operational workflows through systematic task prioritization, improving reporting turnaround time and overall team efficiency.

PROJECTS

Deepfake Detection System & Chrome Extension | Python · TensorFlow · EfficientNet · CNN · OpenCV · | [Final Year Project]

- Engineered a CNN-based deepfake detection pipeline using EfficientNet and transfer learning on the FaceForensics++ benchmark dataset, achieving ~92% validation accuracy across binary classification on 100,000+ video frames.
- Designed a frame-level preprocessing pipeline using OpenCV for automated face extraction and normalization, optimizing inference performance through hyperparameter tuning (learning rate scheduling, dropout regularization).
- Extended the system as a Chrome Extension enabling real-time browser-based deepfake detection, demonstrating end-to-end AI deployment from model training to production integration.

SplitWise AI — AI-Powered Analytics Platform | Python · Google Gemini API · EasyOCR · SQLite · Plotly · | [splitmyexpense.streamlit.app](#)

- Built and deployed a full-stack AI application with a two-stage LLM pipeline — EasyOCR for OCR-based receipt digitization and a prompt-engineered Gemini API call converting unstructured text into structured JSON with item-level accuracy.
- Delivered an interactive Plotly analytics dashboard with spending trends and per-person expenditure breakdowns, backed by a normalized SQLite database with multi-tenant Google OAuth 2.0 authentication.

Sales Performance Dashboard | Power BI · Microsoft Excel · DAX · Data Modeling

- Designed an interactive Power BI dashboard from Excel data using DAX measures, slicers, and KPI visualizations, identifying key sales trend variations and delivering actionable performance insights through drill-down analytics.

EDUCATION

Parvatibai Genba Moze College of Engineering (SPPU), Pune

2022 – 2026

B.E. – Artificial Intelligence & Data Science | CGPA: 8.16

CERTIFICATIONS

- The Ultimate Job Ready Data Science Course – Code with Harry
- Career Essentials in Generative AI – Microsoft & LinkedIn Learning
- Career Essentials in System Administration – Microsoft & LinkedIn Learning

ACHIEVEMENTS & PARTICIPATION

- Smart India Hackathon (SIH) 2024
